Dr. Todd Rowe
Optimizing Straight-wire Orthodontics & Invisalign®
Tips, Nuggets, Pearls & some Good Advice

December 5 - 6, 2025 Sheraton, Bradley Airport, Windsor Locks, CT

Todd Rowe DMD, MS, is a diplomate of the American Board of Orthodontics practicing in Leominster, Ma. He received his DMD and MPH from Harvard School of Dental Medicine (where he is currently a clinical instructor), and his MS in Ortho from Univ. of Michigan.

Over the course of two days, we will investigate 20-30 patient cases to tease out ideas that make orthodontic treatments work or stumble.

We will evaluate appointment by appointment progress photographs and discuss what to expect to happen as we apply orthodontic mechanics to various malocclusions. By offering more than simple before and after photographs, we will gain a more in depth look into, and a better understand of what can go right and what can go wrong during treatment, and help keep our desired treatment goals realistic and on track.

We will examine child, teenage, and adult patients, some treated with braces, some treated with Invisalign clear aligners, to point out similarities and differences in treatment goals and expected outcomes.

Our primary goal will be to point out "pearls" learned from over 30 years of clinical practice for you to evaluate and consider applying to your patients. Hopefully you will experience some "aha" moments that will make you excited to see patients the following week.

Participants will learn the following:

- ◆ Strategies to help reduce debonded brackets
- ◆ Techniques for establishing a final vertical overbite at the start of treatment using composite turbos
- ◆ Comparing bonding techniques between braces vs aligner attachments
- ◆ Examine the relationship between tooth sizes/arch shapes and anterior torque for optimal buccal seating during orthodontic finishing
- ◆ Managing tooth size discrepancies
- ◆ Focus on revision aligner plans to see how to evaluate treatment progress using the ClinCheck® software
- ◆ Discuss if we should keep vs replace attachments with revisions
- ◆ Discuss how to know when it is time to consider an aligner revision
- ◆ Discuss the impact of changing the number of aligners in a ClinCheck® and strategies to modify aligner numbers to make treatment more predictable
- ◆ Examine overcorrections to add to ClinCheck® plans

See reverse side for what to bring, how to get credits and further details.

IAO Study Club- New England

Nationally Approved PACE Program Provider for FAGD/MAGD credit.

Approval does not imply acceptance by any regulatory authority or AGD endorsement.

January 1, 2024 to December 1, 2027

Provider ID# 213395

Limited commercial sponsors (vendors) may be present outside the educational space and will be announced at each meeting.

Advanced in person Seminar Course Credits & Case Diagnosis Description

11 Lecture credits

4 Participation credits Saturday 1:00 – 5:00

- Common Bending Errors & Predictable technique for adding anterior torque to a rectangular finishing wire.
- Filling aligner attachment templates to reduce flash

Participants should bring:

- Bring Laptops & thumb drives with ClinChecks of Invisalign® cases
- Your typical finishing arch wire: 17x22 vs 19x25 TMA or SS, Arch forming plier (Hollow chop plier), Tweed plier + bird beak plier, vs 2 bird beak pliers, Wire bending template (if you use one)
- An Unfilled aligner attachment template, Composite you typically use for attachments, Composite instrument you use for placing composite restorations.

Case Diagnosis

- Drs. Rowe, DiSantoRose, Moren, Sefranek, Ungerleider – will be held Friday 7:00 – 9:00 PM.

2 Participation CE credits given to those that attend Friday evening and sign in

Course Breakdown: Since many of our members attend various portions of the weekend on an individual basis the following protocol has been developed to allow the allocation of credits to accurately reflect seminar attendance.

Case Diagnosis: At the heart of our organization has been the evaluation of each other's cases to enhance clinical skills. Accurate records serve as a basis for accurate orthodontic case diagnosis by each dental practitioner.

Orthodontic records include:

1. trimmed orthodontic study models,
2. accurate photographs with proper retraction (occlusal shots taken with mirrors and flipped for proper display),
3. orthodontic clinical exam (includes TMD evaluation),
4. panoramic radiograph,
5. cephalometric radiograph,
6. cephalometric tracing.

The above protocol follows the standard of care for those dental practitioners providing orthodontic services for their patients in the United States. **All course attendees are encouraged to bring cases to case diagnosis with the above records so that we may all provide input into each other's cases.**

The awarding of credits will be as follows:

Course

Fri	8:30 -12:00 AM	3.5 Lecture credits
Fri	1:00 - 5:00 PM	4.0 Lecture credits
Fri Case DX	7:00 - 9:00 PM	2.0 Participation credits
Sat	8:30 -12:00 AM	3.5 Lecture credits
Sat Hands On	1:00 - 5:00 PM	4.0 Participation credits

Lunch Break is on Friday and Saturday from 12:00 – 1:00 PM

Sheraton Room Discount: use the promo code D3168 when you call the hotel or the 800 number for Marriott / Sheraton or you go on their website to make a reservation.

Or book on our website link

- 1) Go to <https://www.iaone.org/location.php> this brings you directly to the Sheraton Bradley reservation screen
- 2) Do not sign in with your Bonvoy Number as this will inactivate this screen and prevent you from getting a room.
- 3) Select your stay dates

Annual Package Plan 2026 - IAONE ADVANCED SEMINARS

We would like to reflect on all the accomplishments of IAONE for the past few years. In addition to the wonderful advanced speakers, we have maintained our school. We are very excited about the schedule of speakers for the upcoming year, our orthodontic training school and our dental assistants' training course. However, it is important for you to support the club by committing to our ANNUAL PACKAGE PLAN so we can continue to bring you the top names in the orthodontic field for our advanced seminars. Check out our website, www.IAONE.org for all the details. Recommend us to a colleague. We will all benefit.

In order to continue our success, we depend on our members for support, cooperation, and participation.

For over 45 years the non-profit IAO New England Study Club has hosted some of the most brilliant lecturers in the field of orthodontics. Our goal is to strongly support our members in all aspects of their orthodontic practices. However, in order to be able to bring you the cutting edge, high level presentations, we need your financial and physical support. Please mark your calendars, and plan on attending the upcoming sessions. By doing so, you will be elevating your wealth of orthodontic knowledge and clinical skills, and helping to preserve our valuable resource; i.e. Our Study Club!!!!
